PROFESSIONAL SUMMARY

B.Tech student in Artificial Intelligence & Machine Learning (**CGPA: 9.70**) with a focus on Data Analytics and Business Intelligence. Interning at SIN Education and Technology Pvt. Ltd., contributing to a live retail and business management platform. Built and deployed **4+ end-to-end analytics applications** using Python, SQL, and Streamlit. Recognized among the **Top 200 nationwide** for the Genpact STEM Scholarship. Seeking a Data Analyst or Business Intelligence role to apply analytical and problem-solving skills in a real-world environment.

EXPERIENCE

Data Studio Intern

June 2026 – July 2026

SIN Education and Technology Pvt. Ltd. | SIN School of AI

Remote

- Contributing to **SINERO**, a retail and business management platform, gaining exposure across Data Analysis, project management, Generative AI, Product Development, and Business Solutions.
- Collaborating with cross-functional teams to support product feature development and business-focused workflows for a live application.

PROJECTS

AskQL – AI-Powered Text-to-SQL Analytics Dashboard | *Python, SQL, Streamlit, GenAI*

Live ↗ | GitHub

- Designed and deployed a natural language to SQL platform that translates plain-English questions into executable database queries, analyzing datasets containing 10,000+ records, enabling non-technical users to extract data insights without writing SQL.
- Integrated automated query correction and structured response generation to improve query accuracy and result interpretability.

Retail Product Analytics – SHEIN Dataset | *Python, SQL, MySQL, Pandas*

GitHub

- Cleaned, transformed, and structured 20,000+ retail product records into a relational database for analysis of pricing, category performance, and product trends.
- Developed 15+ SQL analytical queries to identify high-performing categories, pricing distributions, and inventory-related insights supporting business decision-making.

InferaAI – AI Productivity & Analytics Platform | *Python, Streamlit, Pandas*

Live ↗ | GitHub

- Developed a 6-module productivity platform integrating an AI Assistant, Task Manager, Planner, Analytics Dashboard, Session Tracking, and Infera Flow (Pomodoro Mode) within a unified interface.

EduBus Tracker – Transportation Analytics System | *Python, SQL, Streamlit*

Live ↗ | GitHub

- Built a transportation analytics platform for route tracking, occupancy monitoring, and operational reporting. Analyzed route utilization and occupancy data through interactive dashboards to support transportation planning.

TECHNICAL SKILLS

Analytics & BI: SQL, Power BI, Tableau, Microsoft Excel 365

Programming: Python, Java, C

Libraries: Pandas, NumPy, SciPy, Scikit-Learn, Plotly, Matplotlib

Databases: MySQL, SQLite, RDBMS

Tools: Git, GitHub, Streamlit, Jupyter Notebook, VS Code, Google Colab, Anaconda

Core: EDA, Data Cleaning, Statistical Analysis, Data Visualization, Business Analytics, DSA, OOP

ACHIEVEMENTS

Genpact STEM Scholarship – Selected among Top 200 candidates nationwide

NPTEL Emotional Intelligence – Ranked Top 5% nationally (Jan–Mar 2026)

Winner – Prompt Engineering Competition (May 2026)

Top 3 Performer – Advanced MS Excel 365 Training

Class Topper – 3rd Semester, B.Tech Artificial Intelligence & Machine Learning

EDUCATION

Jodhpur Institute of Engineering & Technology

Jodhpur, Rajasthan

B.Tech – Artificial Intelligence & Machine Learning CGPA: 9.70 / 10

2024 – 2028

Vande Mataram Senior Secondary School (RBSE)

Class 12: 89.40% — Class 10: 94%

CERTIFICATIONS

NPTEL – Ethics in Engineering (May 2025); Emotional Intelligence (Mar 2026); Soft Skills Development (Sep 2026)

Infosys Springboard – C Programming (Dec 2024); MySQL Project (Feb 2026)

TATA GenAI Powered Data Analytics Job Simulation (Sep 2025)
